

# HOW MADONNA STAYS YOUNG

**M**ADONNA MAY EVOLVE, BUT HER flawless complexion stays the same. "Her new look is about bold eyeliner, pink gloss and perfect skin," says Gina Brooke, the pop star's makeup artist. Here is how the icon keeps time at bay.

**Fountain of youth** Madonna's secret to radiant skin? Oxygen facials! After 95 percent pure oxygen is sprayed on the face to promote elasticity and collagen production, Brooke hydrates skin with a hyaluronic acid mask to plump fine lines. Next, she preps the face for makeup application by applying Shu Uemura Phyto Black Lift Firming Anti-Wrinkle Cream, which "firms skin and reduces fine lines and wrinkles." MONIQUE MENESES

"She's very simple in terms of makeup," Brooke tells *Us* of Madonna. "She likes to look natural."
