

HOW TO ASSEMBLE YOUR PALETTE

1.

On the underside of the product, find the small circle in the upper left hand corner of the label (Presses Eye Shadow) or the two small circles on the label - one in the upper left hand corner and one in the upper right hand corner (Glow On - blush)

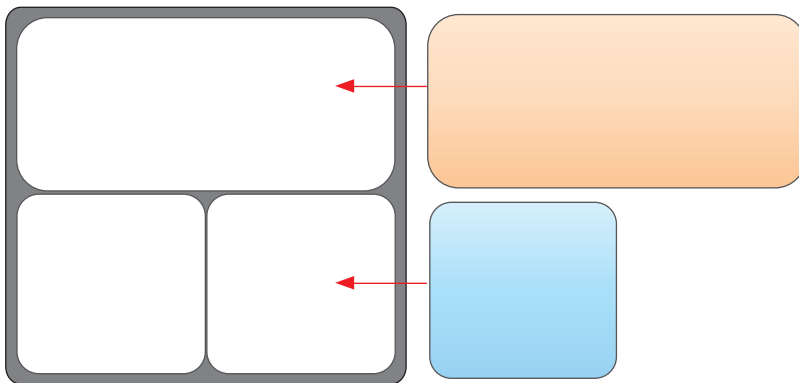

2.

Take the tip of a pen or similarly sized object and press the center of each circle. The glow on pan will then come out of the acrylic case.

3.

Insert the glow on pan into the palette and press firmly to secure.

4.

Now you can enjoy your custom palette.
